ACCESSORIES FOR FLUID ASPIRATION SYSTEMS

BIOCHEM-VACUUCENTER

The compact BioChem-VacuCenters offer perfect solutions for safe, sensitive and efficient aspiration of supernatants in all application areas. All systems are available either with vacuum-resistant, autoclavable 4l PP or a 2l borosilicate glass bottles, with glass preferable for working with aggressive disinfectants such as chlorine bleach. All versions are ready for connection of a second hand control. For the customization of the BVC a comprehensive range of accessories is available:

<p>Handset VHC^{PRO} NEW</p> <p>Ergonomic light weight aspiration handset, with 2.5 m flow through, very flexible silicon tube, autoclavable.</p>  <p style="text-align: right;">688061</p>	<p>BVC shuttle</p> <p>Mobile stand for BVC-models control and professional, for easier cleaning and changing of bottle under cabinet.</p>  <p style="text-align: right;">696880</p>
<p>Table stand VHC^{PRO} NEW</p> <p>Stable stand for the equipped VHC^{PRO}, during work with cell cultures</p>  <p style="text-align: right;">635680</p>	<p>4l bottle (PP)</p> <p>4l-collection bottle with high chemical resistance, with special designed bottle cap for minimised formation of aerosol and foam.</p>  <p style="text-align: right;">635810</p>
<p>Tip ejector VHC^{PRO} NEW</p> <p>Adapter with ejector for pipette tips 2 – 200 micron.</p>  <p style="text-align: right;">635638</p>	<p>2l bottle glass</p> <p>2l borosilicate glass bottle, shutter proof due to plastic coating to assure safe handling of biohazards.</p>  <p style="text-align: right;">635809</p>
<p>Extension kit second VHC/VHC^{PRO} connection</p> <p>Hose nozzle and und inlet tube for minimised formation of aerosol and foam (VHC/VHC^{PRO} not included).</p>  <p style="text-align: right;">699943</p>	<p>Adapter for 2l glass bottle</p> <p>Adapter for 2l-glass bottle (BVC control, BVC professional.</p>  <p style="text-align: right;">635839</p>
<p>Quick couplings VHC/VHC^{PRO} - bottle</p> <p>PVDF quick couplings with adapter for connecting of VHC/VHC^{PRO} to bottle. Also usable as extension kit instead of 699943.</p>  <p style="text-align: right;">635807</p>	<p>Spare tubing for VHC/VHC^{PRO}</p> <p>Silicone tubing (per meter).</p>  <p style="text-align: right;">636156</p>
<p>Quick coupling set connection bottle-pump</p> <p>PVDF quick couplings for connection of bottle to pump BVC or BVC basic.</p>  <p style="text-align: right;">635808</p>	<p>Protection filter 0.2 micron</p> <p>Hydrophobic protection filter 0.2 micron, to protect the pump, electronics and the environment, 20-times autoclavable.</p>  <p style="text-align: right;">638266</p>
