type 50

maus[®]

MAUS[®] type 50 cold-binder-sprayer

All sprayable
contact binders
like EN13080:2005

MAUS® type 50 / 50-00

cold-binder-sprayer

The cold-binder-sprayers have been designed to work with sprayable contact binders like as EN13080:2005.

Tubular steel undercarriage with a holder for the hose and the spraying rods, a barrel holder and a single piston vacuum pump; steel plate wheels with pneumatic tyres.

length: 950 mm
width: 550 mm
height: 1150 mm
weight: 100 kg (admissible total weight)

MAUS type 50 / 50-00
Order number.: 50 00 00 00
accessories on page 18

MAUS® type 89 / 11-00

cold-binder-sprayer

The cold-binder-sprayers have been designed to work with sprayable contact binders like as EN13080:2005.

With double-acting special cold-binder pump, steel plate wheels with pneumatic tyres.

Technical data
length: 1650 mm
width: 1250 mm
height: 1250 mm
weight: 300 kg (admissible total weight)

MAUS type 89 / 11-00
Order number.: 11 00 00 00
accessories on page 18

Playing light barrel accommodation.

type 89A

maus[®]

MAUS[®] type 89 A cold-binder-sprayer

All sprayable
bitumen emulsions*
like EN13080:2005

* if necessary in connection with barrel heating
(accessories on page 18)

EC type-approval
e1* 2007/46* 0429* 00

MAUS® type 89 A / 12-00

cold-binder-sprayer

* if necessary in connection with barrel heating (accessories on page 18)

Technical data

length:	1300 mm
width:	1250 mm
height:	1270 mm
weight:	450 kg (admissible total weight)

The cold-binder-sprayers have been designed to work with sprayable bitumen emulsions* like as EN13080:2005.

Tow-bar block brake, double-acting special cold-binder pump, pneumatic tyres.

MAUS type 89A / 12-00

order number: 12 00 00 00

Accessories (Further information see page 18)

order number: 12 60 00 00	spray rod
order number: 12 65 00 00	tar hose
order number: 12 50 00 00	barrel heating
order number: 12 54 00 00	corner-spray unit

MAUS® type 89 A / 15-00

cold-binder-sprayer

* if necessary in connection with barrel heating (accessories on page 18)

Technical data

length:	2250 mm
width:	1260 mm
height:	1370 mm
weight:	450 kg (admissible total weight)

The cold-binder-sprayers have been designed to work with sprayable bitumen emulsions* like as EN13080:2005.

Hand-operated spraying machine with hand-drawn shaft acting as tow-bar block brake, double-acting special cold-binder pump, Torsion bar spring axle; drawshaft for cars and lorries; with EC type-approval; removable lighting equipment an steel plate wheels with pneumatic tyres.

MAUS type 89A / 15-00

order number: 15 00 00 00

Accessories (Further information see page 18)

order number: 12 60 00 00	spray rod
order number: 12 65 00 00	tar hose

type 90A

maus[®]

MAUS[®] type 90 A cold-binder-sprayer

All sprayable
bitumen emulsions*
like EN13080:2005

* if necessary in connection with barrel heating
(accessories on page 19)

Figure indicates MAUS type 90A / 25-00
without barrel heating

MAUS® type 90 A

cold-binder-sprayer

* if necessary in connection with barrel heating (accessories on page 19)

The cold-binder-sprayers have been designed to work with sprayable bitumen emulsions* like as EN13080:2005.

Motor spraying machine with hand-drawn shaft acting as tow-bar block brake. The special cold-binder pump is driven by 5,9 kw HONDA-petrol engine or a 3,1 kw HATZ-gasoil engine via turbo coupling. Steel wheels with pneumatic tyres. Cleaning system.

Technical data

length: 2540 mm

width: 1270 mm

height: 1340 mm

weight: 550 kg (admissible total weight)

Versions and executions

Pump drive over 5,9 KW HONDA-petrol engine

Pump drive over 3,1 KW HATZ-gasoil engine

MAUS type 90A / 20-00 without dust cover
Order number: 20 00 00 00 (HONDA-petrol engine)

MAUS type 90A / 25-00 without dust cover
Order number: 25 00 00 00 (HATZ-gasoil engine)
Order number: 25 00 00 ES (HATZ-gasoil engine, E-start)

MAUS type 90A / 22-00 with dust cover
Order number: 22 00 00 00 (HONDA-petrol engine)

MAUS type 90A / 27-00 with dust cover
Order number: 27 00 00 00 (HATZ-gasoil engine)
Order number: 27 00 00 ES (HATZ-gasoil engine, E-start)

Accessories and additional equipment

Spray rod

with 5 mm round-discharge nozzle length 2,00 m
with 3 mm flat-discharge nozzle length 2,00 m

Order number: 20 65 00 00

Corner-spray unit (Fig. see page 19)

Order number: 12 54 00 00

type 90A

maus[®]

MAUS[®] type 90 A cold-binder-sprayer

All sprayable
bitumen emulsions
like EN13080:2005

* if necessary in connection with barrel heating
(accessories on page 19)

EC type-approval
e1* 2007/46* 0429* 00

Figure indicates MAUS type 90A / 26-00
with barrel heating

MAUS® type 90A

cold-binder-sprayer

* if necessary in connection with barrel heating (accessories on page 19)

The cold-binder-sprayers have been designed to work with sprayable bitumen emulsions* like as EN13080:2005.

Motor spraying machine with hand-drawn shaft acting as tow-bar block brake. Two supplies to use the spraying rod and/or a spray bar. The special cold-binder pump is driven by 5,9 kw HONDA-petrol engine or a 3,1 kw HATZ-gasoil engine via turbo coupling. Sprinborn axle and a shaft for lorry with Steel wheels with pneumatic tyres. Removeable lighting equipment. Cleaning system. With EC type-approval.

Technical data

length: 3200 mm

width: 1260 mm

height: 1470 mm

weight: 550 kg (admissible total weight)

Versions and executions

Pump drive over 5,9KW HONDA-petrol engine

Pump drive over 3,1 KW HATZ-gasoil engine
