

FVS1600

The Foremost 1600 Hydrovac model allows for larger capacities, but is designed to be mounted on a heavy tandem or tridem chassis. These units have the same equipment as the Foremost 2000, but can include the 42" or 70" van body.

The FVS1600 holds 1600 gallons and features a 13 yard debris body. Vacuum power is supplied by the Robuschi RBDV125 blower. The CAT 3560 wash pump and 740,000 btu boiler are also used on this model. The boom is rear mounted, 8" in diameter, fully rotational and controlled by an Omnex wireless controller, which also controls the vehicle RPM, wash and vacuum functions. All offloading functions can also be performed via the remote.

Offloading is performed via a sloped debris floor design and wash out system. The dump door is 48" by 58", providing a large area to allow for tank cleaning.

Optional 4" Hydratech offloading pump systems are available on this model. This will allow for pumping off in a contained manner when discharging liquid loads. Complete winterization features come standard on this unit.

This unit is recommended for all applications, both in town and in industrial settings.

FVS1600 HYDROVAC

STANDARD SPECIFICATIONS

Horsepower Requirements	425+
Debris Tank Capacity	13 Cubic Yards
Water Tank Capacity	1600 US Gallons
Offloading System	Sloped Debris Floor Centrifugal Pump Tank Flush
Dump Door Dimensions	48" by 58" Door 8" and 6" Heated Decant Valves
Level Gauging Debris Tank	Float Ball, External Gauge
Level Gauging Water Tank	Sight Glasses
Transfer Case	Namco
Vacuum Blower	Robuschi RBDV125 Robuschi RBDV145
Vacuum Filtration	Cyclone and Cartridge
Water Pump	Cat 3560
Tank Flush Pump	Banjo Centrifugal
Hydraulics	Sauer Danfoss
Boiler	740,000 BTU 1,000,000 BTU
Boom System	8", 340 Degree
Wireless Remote Controls	Omnex
Heated and Insulated Van Body	42" or 70" Aluminum Freezer Hardware Hose Reel Door Pump Service Door
Additional Storage	Rear Fender Boxes
Lighting	Front and Rear Beacons Multiple LED Work Lights
Winterization Features	Glycol Blowdown System All Valves Heated Heated Van Body Rear Custom Insulated Valve Covers
Hose Reel	Hannay Air Operated
Offloading Pump System	4" Hydratech
