CBF SERIES

BUCKET CRUSHER

WWW.GENSCOEQUIP.COM

Description

The CBF bucket crusher is the ideal solution for any demolition company. Its unique ability for immediate on-site crushing of inert materials, including brick, concrete, and most rocks aids in disposal and can significantly lower costs.

Due to its on-site nature the bucket crusher eliminates dumpsite fees and allows contractors to reduce their costs for transportation, man-power, and equipment.

The easy-to-handle bucket crusher is manufactured with HARDOX. This material guarantees crush resistance while offering superior wear and minimal maintenance. Suitable for most sizes of excavators, skid loaders, and backhoes the CBF series is literally a groundbreaking solution to on-site demolition.

- 1) Body 90% composed of HARDOX 45
- 2) Crushing plates made of 18% manganese cast
- 3) Bolted upper bracket
- 4) Internal flywheels
- 5) Internal and overlookable belt
- 6) Engine and hydraulic components inside the structure

- 7) Unique valve
- 8) Output size adjustment from 1" to 5"
- 9) Choice between smooth or toothed blades
- 10) Arrangement for magnet
- 11) Double balance system
- 12) Smooth structure walls

Optional

Front excavation teeth

Rear excavation teeth

Magnet Kit

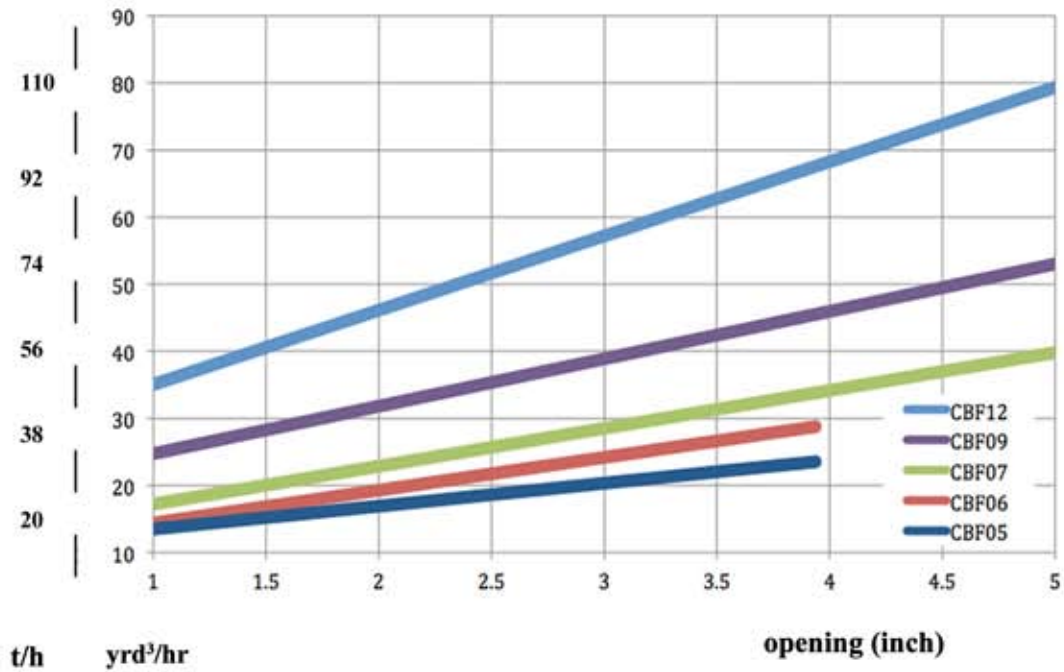

Pre-arrangement for wheel loader or telescopic cylinder

CBF Series

	CBF 05	CBF 06	CBF 07	CBF 09	CBF 12
 Excavator Weight (ton)	7.5 - 12	12 - 15	15 - 22	22 - 33	33 - 50
 Mouth Size (inch)	19.7"x16.5"	23.6"x19.7"	27.6"x21.7"	21.7"x35.4"	47.2"x21.7"
 Weight (lbs)	2825	3595	4960	7500	11000
Approx Capability SAE (ft³)	15.2	20.5	24.7	30	35.3
 Max Pressure (psi)	2900	2900	2900	2900	2900
 Flow (g/m)	32	34	40	48	58
 Opening (inch)	1" - 3.9"	1" - 3.9"	1" - 4.9"	1" - 4.9"	1" - 4.9"
