## Boasting Two Tonnes O

### Hydraulica 2000 [2000kg]

One of the most powerful vacuum lifters in the industry, the Hydraulica 2000 comes with a huge 2000kg capacity for lifting heavy-duty glass, metal, plastics and more.

Boasting 360° electrically powered rotation alongside powered hydraulic tilt from vertical to horizontal, the Hydraulica 2000 gives operators ultimate control when lifting heavy loads.

Perfect for lifting large format glass and non-porous plate materials, the Hydraulica 2000 has four to six individual vacuum pumps and low vacuum alert system for added safety. Cable remote control is included for operation of vacuum suction and release, as well as tilt and rotation.
