

Technical Specification Sheet

## Low Marking Vacuum Pads

These low marking vacuum pads are suitable for use with Kombi, Hydraulica and DSZ2 vacuum lifters.

These durable vacuum pads are designed to safely lift polished stone and coated or painted glass without marking the surface. The light-coloured rubber pads can also lift plastic and metal without leaving dark stains.

Low marking vacuum pads for our range of Woods lifters and low marking hand cups are also available to purchase from GGR Group.

### Features

- 300-330mm diameter
- Sold individually
- Ref: KGGR461 (Hydraulica and DSZ2), PGGR325 (Kombi)
