

Technical Specification Sheet

Uni Wheel Glass Dolly [GRG25C]

The compact and lightweight Uni-Wheel Glass Dolly provides practical assistance for transporting heavy panes of glass both inside and outdoors.

This easy to use device is a quick and simple solution for preventing on-site injuries related to manual handling. The pneumatic tyre allows for smooth travel over uneven ground and it can even overcome obstacles such as wet soil or kerbs.

The Uni-Wheel's vacuum pad can be fitted onto glass and other flat non-porous surfaces and its frame can be adjusted to fit different load depths.

Features

- Capacity: 200kg
- Dimensions: 1000mm (h) x 400mm (w) x 250mm (d)
- 400mm tyre diameter
- Weight: 15kg
