

# HelioJET 1000 Hot Foamer

- Hot Foam up to 170°F
- Chemical solution up to 20% (siphons automatically)
- Spray distance up to 30 ft.

**PERFORMANCE  
THAT REALLY  
WORKS!**

## *Patented Cleaning Technology from HelioJET*

The **1000 Hot Foamer** combines existing in-plant steam, cold water, shop air, and He-Chem™ Foaming Cleaners to deliver a rich, hot foam solution that will stick to the surfaces you want to clean.

Powered by the patented HelioPAC™ (Pressure - Amplifier - Condenser), this system offers the ultimate in cleaning efficiency and economy.

## System Requirements

### Steam (dedicated supply line)

- 3/4" NPT
- 40 to 150 PSI
- 300 lbs. / hour

### Water (dedicated supply line)

- 3/4" NPT (less than 80°F)
- 20 to 100 PSI

### Compressed Air

- 1/4" NPT
- 25 to 125 PSI
- 6 to 10 SCFM

## Materials of Construction

### Body Housing

- Stainless Steel

### Internal Wetted Components

- Available in brass or stainless steel

### Detergent Valve Assembly

- Available in brass or stainless steel

### Foaming Nozzle

- CPVC
