Motor-speed control for brush sticking direct current motor 24VDC

Implementation for switching current
up to 6A

With speed control, current control,
I x R compensation, change of rotation

To snap onto DIN - rail EN 50022
and EN 50035

Construction width: 67,5mm

| | |
|---|---|
| Short designation / type | Rated voltage: 24VDC M-4Q-6-30 |
| Art. - No. | 06.04.031 |
| Technical data: input circuit | |
| Rated voltage / threshold voltage | 24 VDC |
| Range of rated voltage min. / max. | 19V to 35VDC |
| Input current during rated voltage | 10mA |
| Analogue input - range of voltage | 0V to 10VDC |
| Status indicator | LED 3mm yellow |
| Technical data: output circuit | |
| Range of switching voltage / motor voltage | 19V to 35VDC |
| Max. permanent load current | 6A |
| Current limitation min. / max. | 1A to 6A |
| Speed range | 0 - max. |
| Recommended motor choke | 200µH / 6A |
| Power driver | MOS-FET |
| Other data | |
| Ambient temperature range | -20°C to + 50°C |
| Absence of vibration a/r (10...500Hz) | > 20 / 5 |
| Overload protection / short-circuit-proof / mtemperature monitoring | yes / yes / yes |
| DIN VDE-determinations | VDE 0110, 0160 in parts |
| Position of installation / mounting | can be snapped, addable |
| Mode of connection: screw terminal / pluggable | single wire 4mm ² , fine wire 2,5mm ² |
| Dimensions: W x D x H | 67,5mm x 75mm x 110mm |

Description

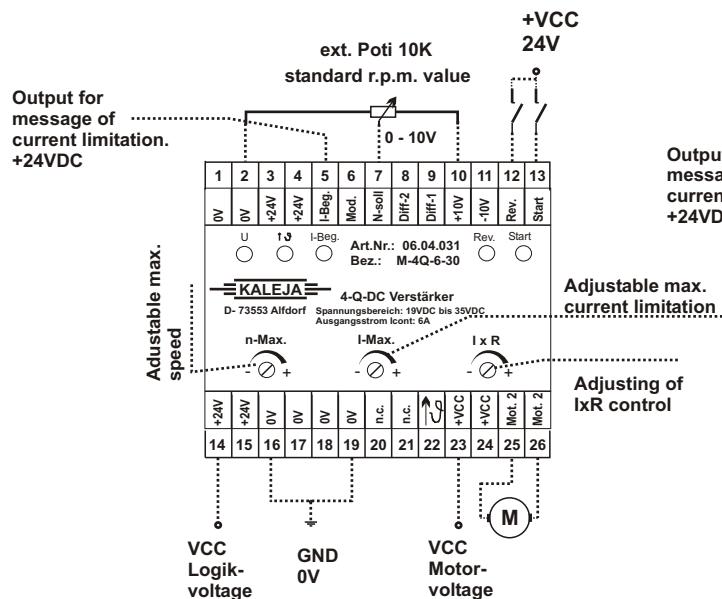

The M-4Q-6-30 module is a motor control system for 24VDC motors with clockwise / anticlockwise. It ensures switching ON / OFF and the controlled driving and braking of motors at both direction of rotation. The load is short - circuit in OFF conditions which result in dynamical braking.

Special features:

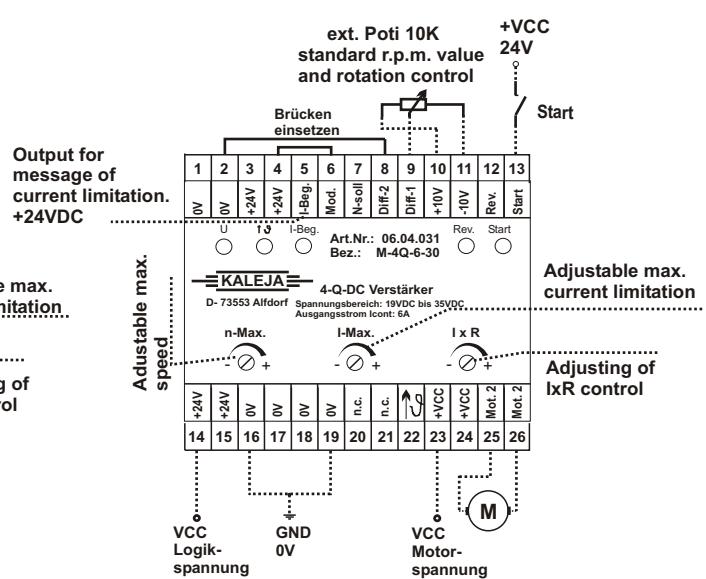

Short circuit protection, temperature protection, overload protected, at Modus-Input can be choose, whether the Input 0V to 10VDC motor speed and Rev.- Input or the Differential Input +/- 10VDC are active, adjustable max. speed, IxR compensation, direct change of rotation.

Electrical connection and controls

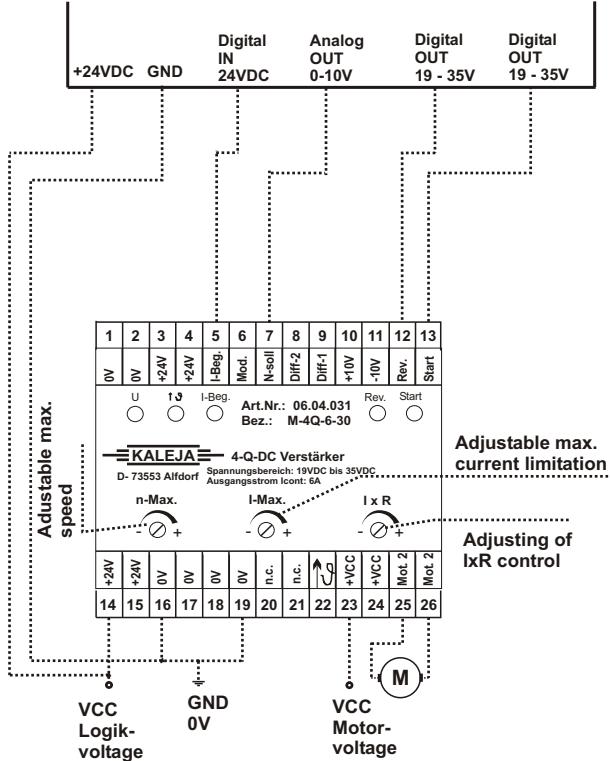

Standard - circuit elements

Differential input circuit elements

PLC circuit elements

PLC circuit elements with differential output
